FATTY CANYON ROAD

UINTAH COUNTY, UTAH

COUNTY ROAD NUMBER 4690

State of Utah)
 : ss
County of Duchesne)

GERALD A. HUFF, being first duly sworn, deposes and states as follows:

1. I am an adult competent to testify about the matters set forth below based upon my personal knowledge. I lived in Uintah County 35 years. I currently reside in Duchesne County, Utah. I am familiar with the indicated road because I became the Bookcliffs Area Manager in the State of Utah for the Bureau of Land Management in 1958. In 1958, just after I was appointed, I spent three months traveling and learning about the area in southeastern Uintah County where Fatty Canyon Road and other roads are located.

2. I have traveled and am familiar with a road in Uintah County known as the Fatty Canyon Road. I am also familiar with the land the road traverses. When I first used and observed the road in the early 1970s, it followed the same route as in the late 1980s, when I last observed it. Attached is a Uintah County map showing Fatty Canyon Road. To the best of my knowledge and based upon my use of and familiarity with this road and the land it traverses, the location and route of the road are correctly illustrated on the attached map.

3. I am informed that the County identifies this road according to the road number described above.

4. I have observed that the road has been open to the public for all to use, to come and go as they pleased, since at least as early as the early 1970s and continuing through 1976 to

the late 1980s. During this time period I have observed travel on the road by pickups. During this time period, the road has been used weekly, except during the hunting season when it was used daily.

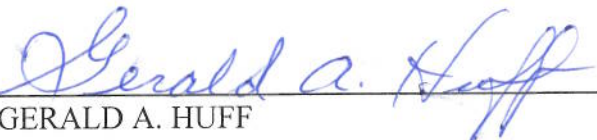

5. I walked the twenty-one mile segment of this road seven times laying out the route the road should run. I have driven on the road numerous times since its construction in the early 1970s.

6. During the time period from the 1970s to the late 1980s, I have observed vehicles using the road at various times for ranching, hunting, commerce, sightseeing, camping, recreation, land management, accessing state school and institutional trust lands and traveling in and through the area.

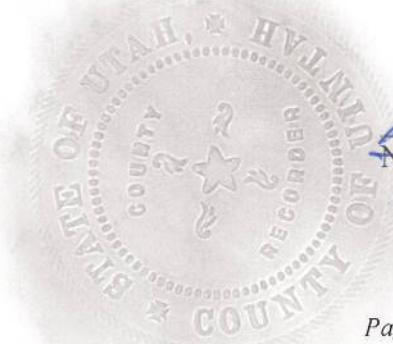

7. It is also the reputation in the community that this road has been open to the public for all to use, to come and go as they pleased, since at least as early as the 1970s and continuing through 1976 to the present, for the uses described in the previous paragraph.

8. Construction of the road in the early 1970s was performed mainly by a D-7 Cat bulldozer which cut the path of this road. I have seen the road bladed many times since its initial construction.

Dated this 19 day of October, 2006.
